CONCENTRATED FUEL SYSTEM TREATMENT

AMALIE Concentrated Fuel System Treatment is a premium treatment designed to clean the entire fuel system and prevent carbon buildup that can negatively affect the vehicles performance and overall health. This treatment will help prevent and resolve surging, hesitation, stalling, and rough idle. **AMALIE Concentrated Fuel System Treatment** uses high-quality additives to improve fuel economy, extend engine life and improve horsepower and performance. The **AMALIE Concentrated Fuel System Treatment** is safe for use in both gasoline and diesel engines.

TYPICAL PHYSICAL AND CHEMICAL PROPERTIES

| | |
|--------------------------------|--------------|
| Color..... | Light Yellow |
| API Gravity, 15.6°C..... | 29.3 |
| Specific Gravity @ 15.6°C..... | 15.6 |
| Viscosity, cSt @ 100°C..... | 2.80 |
| Flash Point, °C..... | 125 |

Typical values are listed. Variations not affecting the performance of this fluid may occur during production; however, these variations will not fall outside of set specification parameters.

Directions for Use:

Add the **AMALIE Concentrated Fuel System Treatment** to a nearly empty gas tank, and then fill the tank with fuel. For optimal results, do not refill the gas tank until the tank is nearly empty. We recommend using the **AMALIE Concentrated Fuel System Treatment** every 3,000 miles as part of routine maintenance and preventative care.

For the best results, pour the entire (12 fl. oz.) bottle of **AMALIE Concentrated Fuel System Treatment** into gas tank. One 12 fluid ounce bottle treats up to 25 gallons of fuel.

Please consult AMALIE Technical Services or your local representative for a full listing of applications.
