SPECIAL EP SAE 80W-90 GEAR OIL

AMALIE Special GL-4 80W-90 Gear Oil is a premium gear lubricant designed for commercial transmissions, axles, and final drives. Features include excellent thermal and oxidation stability, compatibility with seal materials, proven heavy duty transmission performance, superior copper corrosion protection, demulsibility and foam suppression, and superior storage stability.

Check owner's manual for specific recommendations.

TYPICAL PHYSICAL AND CHEMICAL PROPERTIES

Viscosity Grade.....	80W-90
Kinematic Viscosity @100°C, cSt.....	15.0
Kinematic Viscosity @40°C, cSt.....	145.0
Viscosity Index.....	105
Flash Point, °C (°F).....	250 (482)
Pour Point, °C (°F).....	-30 (-22)
Density, S.G.....	0.88
Brookfield Viscosity @(-40°C) cP.....	<150,000

Typical values are listed. Variations not affecting the performance of this fluid may occur during production; however, these variations will not fall outside of set specification parameters.

RECOMMENDATIONS

AMALIE Special GL-4 80W-90 EP Gear Oil is recommended for any gear boxes, transaxles and transmissions that call for GL-4 gear oil.

Please consult AMALIE Technical Services or your local representative for a full listing of applications.
