ROLLING OIL

ISO
10

GENERAL PURPOSE

BENEFITS:

- » Oxidation Resistance and Thermal Stability
- » Non-Staining – Will Not Discolor Finishes
- » Superior Rust and Corrosion for Gears and Bearings
- » Rapid Water Separation
- » Quick Foam Release

MADE IN U.S.A.

ROLLING OIL GENERAL PURPOSE

AMALIE Rolling Oil – General Purpose 10 is a multipurpose rolling oil formulated from premium base stocks and using quality additives which are non-staining. This rolling oil provides wear, rust, and oxidation protection, and contain lubricity agents to improve the metal finish. **AMALIE Rolling Oil – General Purpose 10** is recommended for use in a variety of rolling applications for nonferrous materials, such as aluminum, copper, brass, and other copper alloys. This product is non-staining, does not contain zinc, and provides very good wear protection for use in hydraulic systems. It demonstrates exceptional oxidation resistance, foam control, rust and corrosion protection, and rapid demulsibility.

TYPICAL PHYSICAL AND CHEMICAL PROPERTIES

ISO Viscosity Grade.....	10
API Gravity.....	30.0
Flash Point, °C.....	180
Viscosity @ 100°C, cSt.....	2.8
Viscosity @ 40°C, cSt.....	10
Viscosity Index.....	100
Pour Point, °C.....	-30

Typical values are listed. Variations not affecting the performance of this fluid may occur during production; however, these variations will not fall outside of set specification parameters.

Additional Information

Please use proper handling and care that you would use with any lubricating oil.

Please consult AMALIE Technical Services or your local representative for a full listing of applications.
